

Wayfinding Signage for the Town of Hanna and the Village of Youngstown

Hanna and Youngstown Signage project
Project no: 0406.5 + 0406.6

Addendum 2

APC Opportunity AB-2022-04882
Closing Date: Wednesday August 17, 2022
Date of Issue: August 10, 2022

1. For the Town of Hanna & Village of Youngstown. Do the back of the facilities and park signs need to be painted?
 - A. The back of park signs should be painted. The back of facilities signs do not need to be painted.

2. For the Town of Hanna Monument Sign (Page L3) the finish behind the halo lit letters shows a vertical wood grain effect, is this the desired outcome or is a single painted colour acceptable?
 - A. A single painted colour is not acceptable at this time; wood grain effect should be applied as a digitally printed overlay. Alternate solutions are acceptable so long as they replicate the look of wood grain.

3. For the Town of Hanna Monument Sign (Page L3) on the lower part of the monument sign the finish is indicated as a weathered steel finish, is this the desired outcome or is a single painted colour acceptable?
 - A. A single painted colour is not acceptable at this time unless the single color reflects the look of weathered steel. Alternate solutions such as digitally printed textures are acceptable so long as they replicate the look of weathered steel.

4. For the Town of Youngstown Monument Sign (Page L9) on the lower part of the monument sign the finish on the accent panels are indicated as a weathered steel finish, is this the desired outcome or is a single painted colour acceptable?
 - A. A single painted colour is not acceptable at this time unless the single color reflects the look of weathered steel. Alternate solutions such as digitally printed textures are acceptable so long as they replicate the look of weathered steel.

5. For the Town of Hanna & Village of Youngstown (Page L6 & L11) drawings indicate 6.35mm (0.25") thick aluminum panel, cut to shape. Rear and sides powder coated with weathered steel look, is this the desired outcome or is a single painted colour acceptable?
 - A. A single painted colour is not acceptable at this time unless the single color reflects the look of weathered steel. Alternate solutions such as digitally printed textures are acceptable so long as they replicate the look of weathered steel.

6. For the Town of Hanna & Village of Youngstown directional signs - can the 4x4 cedar beams be replaced with a painted aluminum beam?
 - A. Yes, but please complete the bid using 4x4 cedar beams as specified.

7. For the Town of Hanna & Village of Youngstown. Is digital printed graphics acceptable for facilities and park signs?
 - A. Yes.

8. For the Town of Hanna & Village of Youngstown Branding Signs (Page L5 & L10) The drawing would indicate a white background. Is the white background the desired colour?
 - A. Yes.
